Agenda 2 To consider and acknowledge 2017 Annual Performance Report

Miss Sopacha Damrongpiyavut, Executive Chairman reported on the Company's activities for the year 2017 by presenting the video for shareholders to watch in summary.

Dr. Somboon Aueatchasai, Managing Director reported to the meeting to acknowledge the operating results according to the Company's Articles of Association, Clause 29 and Clause 42, require the Company to report the results of its operations in the past year to the Annual General Meeting of Shareholders. The details are shown in Attachment No. 2 (Annual Report 2017). The Company would like to summarize the operating results for the year 2017 of the Company in Agenda 3 in order to consider and approve the Financial Statements year ended 31st December 2017 at the same time.

Miss Sopacha Damrongpiyavut, Executive Chairman have informed the meeting that the wind energy project that appeared in the video is the first wind energy project that officially has Commercial Operation Date ("COD") for approximately one year and also has a satisfactory operating performance. In addition, the second phase of the project was completed on 27th March 2018 with a total of 120-megawatt for 2 projects, the third wind power project is currently under construction

and expected to be able to distribute commercial electricity as scheduled. In addition, the Company also places importance on the surrounding communities near the Company's power projects by educating, providing support between the business sector and the community to be able to live together happily.

For agenda 2, the Board of Directors has considered and proposed to the Annual General Meeting of Shareholders to report the operating results of the Company for the year 2017 and for this agenda is to inform. There is no need for a resolution from the shareholders' meeting.

Resolution The Meeting by 599 shareholders attending to the meeting which was equal to 5,735,520,360 shares acknowledged the 2017 Performance of the Company.

Agenda 3 To consider and approve the Financial Statements year ended 31st December 2017

Dr. Somboon Aueatchasai, Managing Director proposed to the meeting, in order to comply with the Public Limited Company Act Objective In order to comply with Public Limited Company Act B.E. 2535, Section 112 – Section 114 and Item 29 and Item 42 – Item 44 of the Article of Association, the Company conducted Financial Statements as of 31st December 2017 which was audited by the Auditors that had Certified Public Accountant. Thus, the Company proposed the 2017 Financial Statements to the Meeting to consider approval. The Company's 2017 Financial Statement was as provided in Attachment No. 2 (Page 47).

In the year 2017, the Company and its subsidiaries have revenue from the business operation with a total of THB 4,767 million, which is not included in other income. For a revenue from produce and distribute electricity from renewable energy resources in 2017 has a total of THB 1,536 million, considering this revenue in 2018 which will be derived from the second generation of wind power projects that were sold commercially on 27th March 2018, also the third project that will COD in the second quarter, as well as two power plants in Japan. As a result, in 2018, the Company aims to distribute 180 MW of commercial electricity. This is estimated to be about twice as large for this type of revenue. For revenue from the construction of renewable energy plants has a total of THB 1,962 million. The Company aims to achieve this revenue not less than the previous year in 2018 and grow. The revenue from power supply and distribution has a total of THB 1,201 million, decreasing from THB 1,351 million in 2016, due to the impact on 23th August 2017, Thailand has changed its procurement method from E-bidding to E-Auction, resulting in a slowdown. However, the impact has slowed down in the first quarter of 2018, and the revenue from maintenance services for the power plant has a total of THB 68 million.

The total assets of the Company have growth from THB 25,595 million in 2016 to THB 30,377 million in 2017 according to the consolidated financial statements. The current assets are approximately THB 5,386 million and current liabilities are approximately THB 6,466 million. This is because the Company has power plant projects that are going to COD including a loan from a bank called Project Finance, was included in the group of current liabilities to pay within a year. Therefore, for this item of debt, there has an income that will be paid in. In addition, in 2017, a shareholders' equity increased from THB 9,749 million in 2016 to THB 9,802 million.

On the subject of important audit matters, the auditor considered the audit of the financial statements for the year 2017 with the details as follows:

1. Acquisition of subsidiary

For this issue, Acquisition of a business that has a fair value of acquired assets and liabilities. It is necessary to record the values stored and also expecting for the return (EIRR) in accordance with the Company's policy. As the auditor questioned 'Will the acquisition of the business be impaired?' In this regard, there is no impairment loss on valuation.

2. Impairment testing of cash generating units with goodwill

As at 31st December 2017, there were no indications of impairment for such cash-generating units.

3. Revenue and cost of construction

The Company recognizes income from construction services based on the percentage of completion method. This is based on the survey of the ratio of completed physical construction work compared with all construction works contracted by the engineer who supervised the construction work. In addition, the Company has conducted external evaluations and progress reports for construction projects in order to have a confident in the revenue recognition of the company.

For internal control and risk, the auditor used the right approach to business including how to communicate with the management and testimonials in order to consider the report. The financial statements can be summarized as follows:

(Unit: Million Baht)

Transaction	Consolidated financial statements		Separate financial statements	
	2017	2016	2017	2016
Total Assets (Million Baht)	30,377.02	25,595.83	15,499.21	15,097.59
Total Liabilities (Million Baht)	20,574.36	15,846.58	6,809.11	6,497.52
Total Shareholders' Equity (Million Baht)	9,802.66	9,749.26	8,690.09	8,600.08
Total Revenues (Million Baht)	4,855.28	3,366.83	1,877.45	2,180.93
Profit (Loss) for the year (Million Baht)	424.75	505.56	334.10	334.98
Earnings per share (Baht / share)	0.09	0.07	0.05	0.05

For the other components of shareholders' equity in 2018 were THB -362.63 million, due to the exchange rate loss. This is not a business matter that is recognized as revenue or as a primary expense.

Dr. Djitt Laowattana, Chairman of the Audit Committee has informed the meeting that the Audit Committee reviewed the Company's financial statements and financial reports for the year ended 31st December 2017, the auditors of KPMG Phoomchai audit Ltd. were carefully and adequately disclosed by consulting with the external auditor and the management of the Company on the issue of accuracy reliability and in accordance with generally accepted accounting standards, also provide adequate and timely disclosure. From the review, it was agreed to propose to the meeting of the Board of Directors in order to approve and the board had resolved to propose to the shareholders meeting for approval.

Mr. Supot Pongkidagarn, Shareholder, submitted his queries as follows:

1. How much has commercial electricity been sold? How many megawatts are currently under contract with the government as the news that the government will buy electricity from renewable energy is reduced. And finally, how much for the cost of doing a solar power project and the wind power project per unit?

Dr. Somboon Aueatchasai, Managing Director, replied to the query as follows:

1. From the financial statements of the Company for the year ended 31st December 2017, the Company sold 172 MW of commercial electricity. On 27th March 2018, the Company sold 60 MW of electricity from the second generation of wind power projects and also in the second quarter of 2018, there will be more 50 MW of commercial electricity including the commercial distribution of electricity in Japan by the end of 2018 for 2 projects which are the Sendai project with a capacity of 32 MW and the Kimitsu project with a capacity of 34 MW. At the present, the Company has PPA project with a total of 503 megawatts. This does not include a solar rooftop that has been

installed for a large private company. However, the government has announced a five-year slowdown in buying renewable energy and a lower purchase price. This is because of overbooking policies. Thailand has an electricity reserve about 15%, which will be a major cost burden for electricity bill that cannot be reduced; moreover, Thailand also has the main energy and renewable energy gradually acquired, with a result that the GDP has not exceeded 4% for many years, causing the existing power reserve to exceed the required level. This is the source of the slowdown renewable energy policy.

Miss Sopacha Dhumrongpiyawut, Chief Executive Officer, also replied additional to the query as follows:

1. The Company has a policy to respond to the announcement of the government. Currently, the Company has projects to be completed within the next 3 years, including the current project, Solar Rooftop Project, which is 1 MW, covering an area of 8,000 - 10,000 square meters. It is possible to build a solar power plant that can store electricity for industrial use. This reduces production costs. This year, the Company has targeted to 50 - 100 MW. There are also Solar Floating projects. The company has already built one project for EGAT and is currently receiving the second project. The management is focused on entering into power purchase agreements in the private sector rather than waiting for contracts from the State sector. Moreover, the Company has expanded its investment to other countries such as Japan, Malaysia and other neighboring countries by focusing on solar energy projects and wind energy projects. For Myanmar, the Company has invested in a power plant project as a Natural gas project for around 3 years already, and if the Republic of the Union of Myanmar's government has a policy to develop electricity in the future. We can also expand the transmission system and the station too.

Dr. Somboon Aueatchasai, Managing Director, further replied to the query as follows:

1. For the next question on the cost of running a solar power project and the wind power project. If you consider the installation of solar panels for the household use, which has sold by the Company, the electricity charge will be no more than THB 3 per unit, which is normally at THB 4.11 per unit. So we can see that the target group was originally the government will become a private sector instead. For the wind power project that the Company sold the electricity power of THB 6.50 per unit, as the reason that the turbine is not suitable for home and industrial installations. Since there is no windy area; therefore, the cost of wind power projects is still around THB 4.

Mr. Chokjun Sukanthapruerk, shareholder, submitted his queries as follows:

2. According to the information in the annual report 2017 on the financial statements on page 336, the profit for the year 2017 was THB 711 million, more than the year 2016 was at THB 615 million and the consolidated statement of Profit (Loss) for the year 2017 is THB 424 million, which is less than the year of 2016 at THB 505 million. How are these two different?

Dr. Somboon Aueatchasai, Managing Director, replied to the query as follows:

2. According to the data, the profit for the year 2017 is THB 711 million, compared with the year 2016 of THB 615 million. The Company has Non-controlling interests in the amount of THB 76 million in 2017. This part is owned by another company (Rangngen Solution Company Limited, a joint venture with 67% of registered capital owned by the Company). Therefore, the amount of THB 76 million is contributed by the other joint venture waiting for doing consolidated financial statements. Therefore, the profit for dividend payment is based on the equity of the parent company, which is THB 635 million in 2017. For the figures for the total Profit (Loss) for the period are derived from the reclassification of profit and loss after the translation.

Miss Sopacha Dhumrongpiyawut, Chief Executive Officer, proposed the Meeting that an approval hereunder must be the majority vote of the total votes of the shareholders attending the Meeting and casting their votes.

Resolution The Meeting approved the 2017 Financial Statements as year ended of 31st December 2017 by majority of the votes of the shareholders, which had been reviewed by the Audit Committee and the Board of Directors, and audited by the auditor. The result of vote was as following:

To attend for this agenda in the total of 592 shareholders by 5,735,491,302 shares:

Agenda 4 To consider and approve 2018 Dividend Payment Policy

Dr. Somboon Aueatchasai, Managing Director, proposed the Meeting to consider and approve of 2018 Dividend Payment Policy from the operating results of the Company. The Company has a policy to pay a dividend of not less than 40% of net profit in the Company's separate financial statements after deducting corporate income tax, Legal reserve and other reserve. The Board of Directors has jointly considered the dividend payment for the year 2018 in cash dividend as detail in Attachment No. 3 Page 48.

¹⁾ Calculated from the profit allocation for 2018 to pay cash dividends

²⁾ Calculated the profit allocation for the year that the financial statements were approved to pay cash dividends and stock dividends.

The Board of Directors deems it appropriate to propose the Annual General Meeting of Shareholders to consider the appropriation of legal reserve and the dividend payment from the operating results of the Company as follows:

- To consider and approve the profit allocation for the year end 31st December 2017 and unappropriated retained earnings from 2016, under the exemption of corporate income tax from BOI privilege for:

- A legal reserve amount to THB 22,300,000.00. As a result, the legal reserve of the Company has the total amount to THB 198,300,000.00 or 10.00 percent of the current registered capital of the Company.
- Cash dividend payment at the rate of THB 0.045 per share by not exceeding THB 333,837,967.19.
(The number of issued and paid-up shares is 7,418,621,493 shares)

Cash dividend payment not exceeding totaling THB 333,837,967.19 and Taxation of Dividend Payment is 10 percent withholding tax or THB 0.0045 per share. Thus, the net dividend payment is THB 0.0405 per share.

The Record Date specifies the list of shareholders entitled to receive dividend (Record Date) is on 25th April 2018. The date of exclude dividend (XD) is 24th April 2018 and the cash dividend payment date is set within 15th May 2018.

Miss Sopacha Dhumrongpiyawut, Chief Executive Officer, proposed the Meeting that an approval hereunder must be the majority vote of the total votes of the shareholders attending the Meeting and casting their votes.

Resolution The Meeting had approved by majority of the votes on the allocation of legal reserve and declaration of dividend payment from the Company's performance as follows:

- Approved the profit allocation for the year end 31st December 2017 and unappropriated retained earnings from 2016, under the exemption of corporate income tax from BOI privilege for:

- 1) A legal reserve amount to THB 22,300,000.00. As a result, the legal reserve of the Company has the total amount to THB 198,300,000.00 or 10.00 percent of the current registered capital of the Company.
- 2) Cash dividend payment at the rate of THB 0.045 per share by not exceeding THB 333,837,967.19.
(The number of issued and paid-up shares is 7,418,621,493 shares)

Cash dividend payment not exceeding totaling THB 333,837,967.19 and Taxation of Dividend Payment is 10 percent withholding tax or THB 0.0045 per share. Thus, the net dividend payment is THB 0.0405 per share.

The Record Date specifies the list of shareholders entitled to receive dividend (Record Date) is on 25th April 2018. The date of exclude dividend (XD) is 24th April 2018 and the cash dividend payment date is set within 15th May 2018.

Agenda 13 Other Matters (If any)

Dr. Somboon Aueatchasai, Managing Director, reported to shareholders that this agenda of the meeting would be informed of the progress of the matters related to good corporate governance and being a membership of the Thailand's Private Sector Collective Action against Corruption (CAC). The Chairman of the Good Corporate Governance Committee will present the information to the meeting.

Dr. Chongrak Rarueysong, Chairman of the Good Corporate Governance Committee presented the information to the meeting to acknowledge the results of good governance practice as follow;

The Company is committed to bringing good corporate governance principles into operation throughout the organization in a concrete manner. In the year 2017, the Company received CGR Good Corporate Governance Rating of 91 points, comparing with the score in 2016, the score was 82 points and by comparing with the overall average of the SET 100 Index and the SET 50 Index and the overall listed companies, the Company scores are higher than the average score at 87, 90 and 80, respectively.

For the quality assessment of the Annual General Meeting of Shareholders for the year 2017, the Company received the "Excellent" rating of 97.5 points for the quality of the Annual General Meeting of Shareholders for the year 2017, comparing with the score that obtained in 2016 as the "excellent" score was 97.0 points.

The last one is Membership of CAC in 2017, the CAC committee evaluated and approved the Company to join the CAC on 18th July 2017.

The result of this operation reflects the overall improvement in good corporate governance of the Company. The Company is committed to developing a good corporate governance to get better results in the future.

Mr. Thanaprasert Pairojphachorn, Shareholder, submitted his queries as follows:

1. For the Company, being a member of CAC is a good thing and to provide shareholders with the information is a proper thing to do. In addition, this is recommended that any changes be made regardless of whether it is a request, regulation or otherwise, it should be made up as two tables to compare, the original text is on the left and the revised one to the right.

Dr. Somboon Aueatchasai, Managing Director, replied to the query as follows:

1. Thank you for your feedback. For this time, we did compare with the above and below. However, it will be applied in the next meeting instead.

Mr. Kitti Sanitwong Na Ayutthaya, Shareholder, submitted his queries as follows:

2. How will the Share Repurchase Program affect the minority shareholders? And does the Company do a marketing related to knowledge on alternative energy?

Dr. Somboon Aueatchasai, Managing Director, replied to the query as follows:

2. The first issue, a share repurchase, the maximum amount to be used is not more than THB 1,000 million with the maximum number of shares to be repurchased not exceeding 300,000,000 shares, the average price of one month to determine with a par value of THB 0.25. The Company must disclose the share repurchase program at least 14 days prior to the date of share repurchase from 25th April 2018 to 24th October 2018. The sale of repurchased shares period is 6 months after the completion of share repurchase, but not exceeding 3 years. In the event that the Company does not sell or dispose of the repurchased shares within the period after the deadline, the Company will reduce its paid-up capital by cutting the unsold registered shares that has repurchased. The advantage is that earnings per share will increase and PE is going down.

For the repurchase price, it will not exceed the average closing price of 5 days prior to the date of repurchase, plus 15% of the average closing price. This is due to the company affected by government announcements about renewable energy businesses. The Chairman of the Board of Directors therefore called the meeting and organized the share repurchase program.

Miss Sopacha Dhumrongpiyawut, Chief Executive Officer, replied additional to the query as follows:

2. For knowledge about renewable energy, the Company has a business development team and a specialized team that take care of this matter. The knowledge in the theoretical part has the staffs in the business development with different knowledge, be it LED bulbs, solar power, wind energy, and biomass energy.

Dr. Djitt Laowattana, Chairman of the Audit Committee, replied additional to the query as follows:

2. Technically, solar energy can be applied to electronic devices or not. It depends on the amount of energy and the capacity of the energy. For the storage of energy in the form of a battery, in the future we may see that the energy stored in the battery can be used as a source for other electrical machines.

Mr. Chokjun Sukanthapruerk, Shareholder, submitted his queries as follows:

3. For the plan to reach 1,000 MW, what policies and plans does the Company have? And how much does it possible? And what investment does the Company use to invest? In addition, which banks does the Company use? And why invest solar power projects in Japan and Malaysia?

Dr. Somboon Aueatchasai, Managing Director, replied to the query as follows:

3. These information are available in 'Opportunity Day Presentation'. Currently, the Company has COD approximately 172 MW and on 27th March 2018, commercial electricity was sold from the second wind power project with a capacity of 60 MW. In the second quarter of 2018, there will also be more 50 MW of commercial electricity from the third wind power project. Including, the commercial distribution of electricity in Japan by the end of 2018 for 2 more projects which are Sendai project with a capacity of 32 MW and Kimitsu project with a capacity 34 MW. Furthermore, the other 2 projects in Japan are still on processes which are Utsunomiya project and Iwakuni project. Currently, the Company has projects with a total of 503 MW.

It shows that the Company still needs more about 450 MW of contract, so it is necessary to find additional contracts. The average is 150 megawatts per year. Currently, the Company pays attention to the power purchase agreement with the private sector. The cost to be implemented in this program is derived from the sale of electricity that the Company received including funds from Project Finance and unused debentures. In addition, the cash flow from operations is still sufficient for future investments.

The reason that the company investing in Japan, there are about 6,000 megawatts of solar power in Japan. The country that invested most was China, where Japan originally intended to close nuclear power plants. However, due to the uninterrupted supply of power from solar power plants, it cannot be closed. Japan will not invest in building its own solar power plant that will make GDP negative and unprofitable. We have invested in the power purchase agreement with the best price.

Miss Sopacha Dhumrongpiyawut, Chief Executive Officer, replied additional to the query as follows:

3. For the bank, the Company started with Siam City Bank Public Company Limited which is Thanachart Bank Public Company Limited at the present and then used the services of Krung Thai Bank Public Company Limited, Kasikornbank Public Company Limited, Export and Import Bank of Thailand in the early days. At the time that the Company is growing up, some banks have no policy to support the renewable energy project. It is the reason why the Company used the services of Siam Commercial Bank Public Company Limited to support our wind power projects. However, in addition to Siam Commercial Bank Public Company Limited, there has also CIMB Thai Bank Public Company Limited, Thanachart Bank Public Company Limited, TMB Bank Public Company Limited including overseas banks such as Mizuho Bank, Ltd., RHB Bank, Ltd., Bank of China (Thai) Public Company Limited, etc.

Mr. Mathee Rungsiwong, Shareholder, submitted his queries as follows:

4. In the next 3 years, during the construction phase, will the company have other plans? Moreover, the project in Japan takes about 3 years to complete, then how long will it take for investing in Myanmar or other countries?

For PPA, how long will it take to get more PPA and IRR back? And what money does the Company use in the share repurchase project in the amount of not exceeding than THB 1,000 million? And if the government has set a policy to stop the purchase of electricity for a period of 5 years, what the negative results that will happen with the company's former projects?

Dr. Somboon Aueatchasai, Managing Director, replied to the query as follows:

4. For the first issue, purchase of PPA, such as in Malaysia, the construction period is about 1 year, and for a reason that Japan is more than 1 year is mainly due to the transmission line construction and the EIRR is still 2 digits.

The money that will use to repurchase the shares, mainly derived from the proceeds from the sale of electricity and cash flow from wind energy projects including turning the short-term loan (BE) to become a debenture due to a present situation it is becoming more stable.

For the final question, the Company's projects are not affected by any such government policy because the contracts do not have any change. Moreover, it is pleasure to welcome all the committee members who have been re-elected for another term.

Miss Sopacha Dhumrongpiyawut, Chief Executive Officer, thanked all the shareholders that kindly attending the meeting, including the Board of Directors, the independent directors, the advisors who had been appointed as the committee to review the voting. And thank you to Pol. Maj. Gen. Visit Sukarasep who has worked for our Company as full term through 9 years.

Mr. Gunkul Dhumrongpiyawut, Chairman of the Board, thank you to shareholders, investors, financial institutions, partners in business partners, and all stakeholders who trust, support and support the Company through these years and all the executive committees that help our company growing up this far. Lastly, I would like to give you a word i will manage the Company which i have been built for 36 years by continuing to increase profits every year to make everyone happy and also give the benefits to every one of you, as well as everyone that involved. Thank you.

Before closing the meeting, the number of shareholders present in person and by proxy as follows:-

Shareholders	191 persons	representing	379,231,784 shares
Proxies	411 persons	representing	5,356,345,934 shares
Total	602 persons	representing	5,735,577,718 shares

Equal to 77.3133 % of the total 7,418,621,493 issued and sold shares of the Company,

No any matters for consideration then Chairman of the Board closed the meeting.

Meeting Closed at 12.30 p.m.
